game with your friends at the library.

FOR EVERYONE

ART EXHIBIT - RON MERCER

Throughout November

Syracuse artist Ron Mercer will display his photographs of nature scenes and abstract still life. Ron Mercer's interest in photography began almost 15 years ago when he would accompany artist/photographer Harry R. Freeman-Jones on his treks to the Cold River region of the Adirondack Mountains. The body of Mercer's work ranges from landscape to abstract. His abstractions reflect his interest in the natural formation of colors, textures and shapes.
