MAKING SMALL MOMENTS BIG!

When you talk, read and sing with children, you're helping them build their brains and develop important language, math, reading and social skills. Use these cards every day to help your child learn through their play.

If you have questions about your child’s growth or want to talk with someone about parenting, please call 2-1-1 and ask for Help Me Grow. For more tips and activities, visit onlib.org/makingsmallmomentsbig.
Start each day by telling your child what day of the week it is. Singing the "Days of the Week" song can also help your preschooler learn the different days.
Say different letters and numbers out loud and have your child practice writing them.
Create a poster that spells out your child's first name. Soon, he'll notice these letters on signs, posters and billboards.
Create a family tree by adding names and pictures to a picture and telling your child about each member of the family.
Preschoolers

Let's read about families!

Read books about brothers and sisters or aunts and uncles and ask your child to identify each family member mentioned.
