

OCPL System Services Evaluation

Introduction

The current five year System and Central Plan of Service will be ending in 2016. This survey will help OCPL prioritize the System's goals and objectives for the 2017-2021 Plan of Service.

The System & Central Plan of Service is a planning document which identifies, organizes, and provides an overview of the library system's service program including intended changes in services or priorities. The Plan emphasizes what the library system proposes to accomplish and whom the library system serves. The Plan demonstrates how the library system anticipates it will fulfill the major roles expected of library systems. The major recommended roles for library systems are:

- Support and strengthen member libraries
- Facilitate equitable access to library services and resources directly to patrons/customers
- Facilitate resource sharing among libraries
- Provide leadership for improving library services for all

The evaluation should take 10-15 minutes to complete. The survey will be open for 3 weeks, closing on December 24. If you have any questions about the evaluation or technical assistance contact Amanda Travis, atravis@onlib.org.

This is only the first step in the Plan of Service process. There will be advisory groups created to work on different sections of the Plan. These advisory groups will be made up of member staff, city staff and system staff.

We appreciate your time in offering input in creating the new System & Central Plan of Service.
